I have been hearing about the Cash App for a while now, but I wasn't sure if it was legit or safe. The app seems to have a bad rap since scammers like use the app to target unsuspecting users.

But the truth is, there are scammers using every money app you can think of, so it's not fair to associate Cash App with these scams (I'll show you how to avoid those later).

So I decided to download the app to get the full experience and let my readers know if there are legitimate ways to get free money on Cash App instantly.

So far I am pleasantly surprised with the app and excited to share the details with you below.

Cash App is a free money management app that allows you to send and receive money virtually, accept direct deposits, transfer money to and from your bank accounts, and invest money in the stock market and Bitcoin. There are different ways to get free money on Cash App as long as you protect it as you would your wallet.

In this Cash App review I'll answer questions like:

Is Cash App legitimate? Absolutely. If you use Cash App for the purposes it was intended for (to buy/sell, manage deposits, and invest), you will have no trouble with it. It's a legit virtual wallet for your money.

Is Cash App safe? Absolutely. As long as you avoid sending money to strangers who are trying to scam you (if it sounds too good to be true, it probably is), then Cash App is safe to use. Be sure to always know who is on the receiving end of your cash before hitting "send."

Cash App Pros

- Generous sign-up bonus and referral bonus opportunity
- Easy person-to-person transactions
- User-friendly, simple interface
- Simple investment tool for beginners
- Optional prepaid debit card to limit personal spending

Cash App Cons

- Scammers target Cash App users
- It's nearly impossible to get money back after sending a payment
- Transfers from Cash App to a bank account take 2 business days (or instant for a fee)

I sent five bucks to my husband's Cash App and he sent five bucks back. This simple cash swap didn't cost us a cent, and we both activated our bonuses!

We received $30 in bonuses between the two of us (out of a possible $45):

- I received a $10 Invitation Bonus for using a Cash App free money code (use VPLTZWP).
- I received a $15 Invitation Bonus for inviting my husband to Cash App and sending him five bucks.
- My husband received a $5 Invitation Bonus for sending me five bucks back.

Complete Offers and Surveys

Taking those $750 surveys that send money to Cash App is a legit way to get free money.

To start earning immediately, join InboxDollars, which is one of my favorite paid task websites. InboxDollars is similar to those $750 Cash App offers you'll often see ads for (which require you to complete 10 offers). The difference is that InboxDollars pays you to complete one offer at a time, and you can skip the ones you don't like.

As a member of InboxDollars, if you only want to complete one offer, you can get paid for it without losing out on the entire opportunity. While with RewardZone, if you complete nine out of 10 offers, you earn nothing.

Do not send money to somebody you never understand who is promising to deliver you something at a subsequent time. Always verify those you send money to and also cover them after you receive that which you purchased. Scammers frequently promise a good or service without ever providing proof that it actually exists. This includes promising to find you a cheap flat or offering an apartment at a much slower speed than normal, but demanding you to ship them a deposit first (e.g., before touring the prospective rental). Never send money to somebody you never understand who is promising to deliver you something at a subsequent time - like the apartment leasing. If you fail to verify who someone is or the validity of what they are offering, it's probably a scam. Cash App is made in 2015 as Square Cash, is really a mobile app designed for sending and receiving money. It is readily available for iOS along with Android users, and establishing a free account is free of charge. Cash App can be used to instantly send and receive payments within the USA, however it won't do the job for international exchanges. It is possible to join your bank accounts or your own debit/credit card to ship out payments. Cash App also provides users with a free Visa debit card that's connected along with your Cash App balance and can be used in making purchases online and in stores, or even to get ATM withdrawals. Now, Cash App does not support PayPal. With approximately 24 million monthly active users in 2023, Cash App has been meant to be considered peer-reviewed support. In theory, you should put it to use to make despite your friends after dividing taxi fare or to refund 50 percent to an own sister because they paid to your Mother's Day gift in full. It is not uncommon that Cash App is used for giving loans out or paying for products and services, which renders plenty of chances for possible scams and fraud. Cash App payments are supposed to become instant and, consequently, irreversible. While you do have many options to try to secure your money back throughout the app, there is no guarantee that they are going to always do the job. Just in the event you are dealing with a legitimate retailer and also the purchase has been finalized over Cash App, you should begin the refund process through the app. If you sent money to the wrong person or even the total amount had been wrong, the sooner you understand it, the better as you might continue to find a way to cancel the payment. In the event that you suspect fraudulent transactions or in the event that you think you've been scammed, you may try to dispute the charges by simply requesting Cash Support for assistance.
