

ACCESSIBILITY CHECKLIST

Federally funded projects must be accessible to people with disabilities. NEA requires applicants to consider physical and programmatic accessibility as an integral part of each project’s planning and budgeting process. Applicants may include the cost of access accommodations as part of their project’s budget, including sign interpreters, and audio describers. Applicants may also consider conducting programs in accessible venues other than their own organization in order to meet accessibility requirements.

The information below is a user-friendly tool for your confidential use to assist you in making your organization and project inclusive and available to everyone. The checklist includes links to a wide variety of resources. If you are a grantee of the NEA, this checklist is not a substitute for completing the NEA’s Section 504 Self-evaluation Workbook, available at <http://www.arts.gov/about/Civil.html>.

We recommend you first review the NEA’s [Step-by-Step Guide to Accessible Cultural Programs and Organizations](#).
