## Location quotients (LQ)

- In 2023, Maine ACPSA value added was 37 percent below the national average. By comparison, the LQ for ACPSA value added in all states belonging to the U.S. Regional Arts Organization NEFA (of which Maine is a member) was 0.9, or 10 percent below the national average.
- As for employment in 2023, Maine and NEFA had an LQ of 0.82 and 0.97 respectively.
- And for compensation in 2023, Maine and NEFA had an LQ of 0.63 and 0.9 respectively.

**ACPSA value added** consists of the gross output of an industry less its intermediate inputs; the contribution of an industry to gross domestic product.

**ACPSA employment** consists of all wage-and-salary jobs in which the workers are engaged in the production of ACPSA goods and services.

**ACPSA compensation** consists of the remuneration (including wages and salaries as well as benefits, such as employer contributions to pension and health funds) payable to employees in return for their ACPSA work during a given year.

**“Core” ACPSA industries** are originators of ideas and content associated with the creation of arts and culture. “Supporting” industries produce and disseminate arts and cultural commodities.

**Location quotients** measure an industry’s regional concentration of value added, employment, or compensation relative to the U.S. industry’s share. For example, an employment LQ of 1.2 indicates that state’s employment in the industry is 20 percent greater than the industry’s national employment share. An employment LQ of 0.8 indicates that state’s employment in the industry is 20 percent below the industry’s national employment share.

**Arts regions**, for the purpose of this brief, are defined by the geography groupings for the six U.S. Regional Arts Organizations (RAOs). RAOs are nonprofit organizations that partner with their constituent state arts agencies and with the National Endowment for the Arts on planning and program delivery.

The New England Foundation for the Arts (NEFA) RAO contains the states (CT, MA, ME, NH, RI, VT).
