Trends in arts and cultural production: 2021—2022

In 2022, Nevada ranked 23rd among all states in ACPSA value added and 12th among all states in ACPSA value added growth. Since 2021, ACPSA value added has grown 13.1 percent in Nevada, compared with an increase of 7.8 percent for the United States.

In 2022, Nevada ranked 30th among all states in ACPSA employment and 26th among all states in ACPSA employment growth. Since 2021, ACPSA employment has grown 4.8 percent in Nevada, compared with an increase of 6.4 percent for the United States.

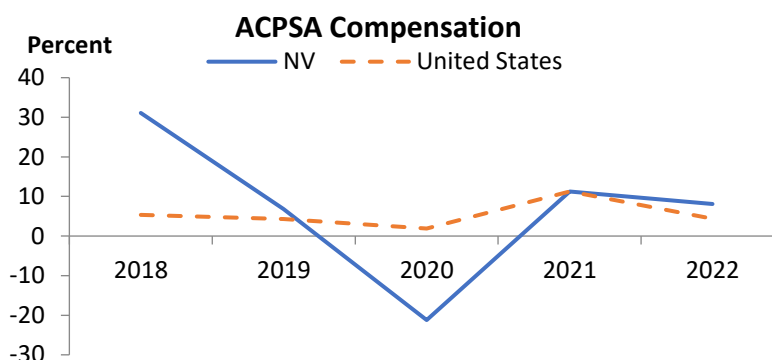

Note. BEA's ACPSA statistics are supported by funding from the National Endowment for the Arts.

Arts and Cultural Production Satellite Account (ACPSA)

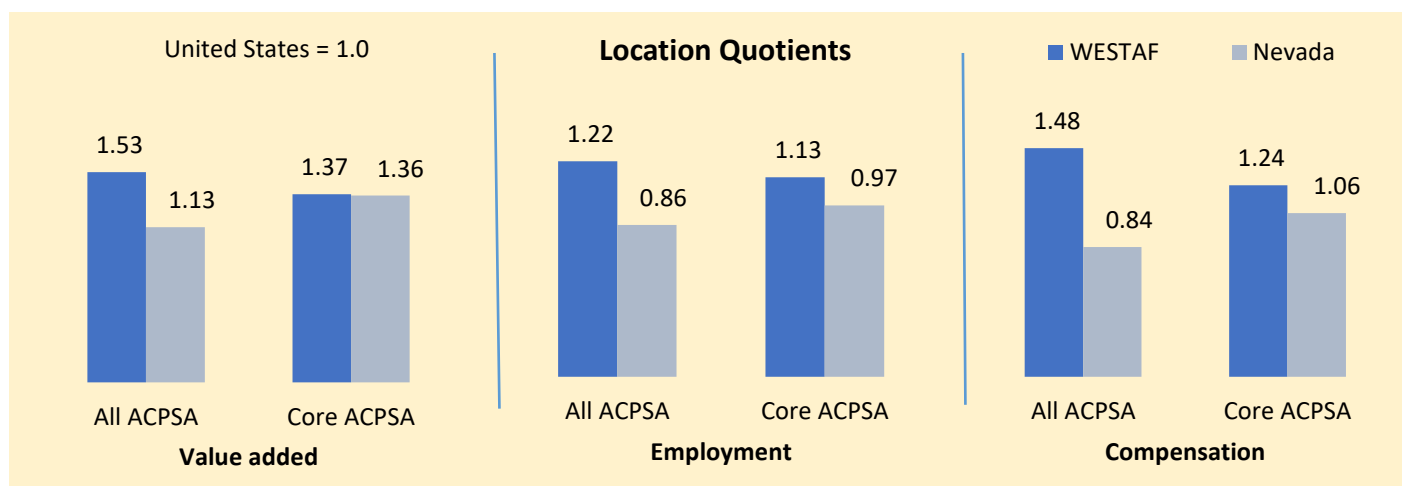

In 2022, Nevada ranked 27th among all states in ACPSA compensation and 21st among all states in ACPSA compensation growth. Since 2021, ACPSA compensation has grown 8.1 percent in Nevada, compared with an increase of 4.3 percent for the United States. Average compensation per wage-and-salary job in Nevada's ACPSA industries was \$91,266 in 2022, compared with \$76,293 for all salaried jobs in the state.

Location quotients (LQ)

- In 2022, Nevada ACPSA value added was 13 percent above the national average. By comparison, the LQ for ACPSA value added in all states belonging to the U.S. Regional Arts Organization WESTAF (of which Nevada is a member) was 1.53, or 53 percent above the national average.
- As for employment in 2022, Nevada and WESTAF had an LQ of 0.86 and 1.22 respectively.
- And for compensation in 2022, Nevada and WESTAF had an LQ of 0.84 and 1.48 respectively.

ACPSA value added consists of the gross output of an industry less its intermediate inputs; the contribution of an industry to gross domestic product.

ACPSA employment consists of all wage-and-salary jobs in which the workers are engaged in the production of ACPSA goods and services.

ACPSA compensation consists of the remuneration (including wages and salaries as well as benefits, such as employer contributions to pension and health funds) payable to employees in return for their ACPSA work during a given year.

"Core" ACPSA industries are originators of ideas and content associated with the creation of arts and culture. "Supporting" industries produce and disseminate arts and cultural commodities.

Location quotients measure an industry's regional concentration of value added, employment, or compensation relative to the U.S. industry's share. For example, an employment LQ of 1.2 indicates that state's employment in the industry is 20 percent greater than the industry's national employment share. An employment LQ of 0.8 indicates that state's employment in the industry is 20 percent below the industry's national employment share.

Arts regions, for the purpose of this brief, are defined by the geography groupings for the six U.S. Regional Arts Organizations (RAOs). RAOs are nonprofit organizations that partner with their constituent state arts agencies and with the National Endowment for the Arts on planning and program delivery.

The Western States Arts Federation (WESTAF) RAO contains the states (AK, AZ, CA, CO, HI, ID, MT, NM, NV, OR, UT, WA, WY).
