NEA MILITARY HEALING ARTS NETWORK

[ARTS.GOV/CREATIVEFORCES](https://arts.gov/creativeforces)

**Creative Forces: NEA Military Healing Arts Network** is a partnership of the **National Endowment for the Arts**, the **Departments of Defense** and **Veterans Affairs**, and the **state arts agencies** that serves the special needs of military patients and veterans who have been diagnosed with traumatic brain injury and psychological health conditions, as well as their families and caregivers.

## Clinical

The NEA funds creative arts therapists, equipment, and supplies at 11 clinical sites across the nation, and a telehealth program for patients in rural and remote areas. In clinical settings, creative arts therapists provide art, music, and dance/movement therapy, as well as creative writing instruction, for military patients and veterans.

## Community

The NEA is creating a community-based military and veteran family support network in proximity to the Creative Forces clinical sites, to provide increased arts opportunities for military and veteran families. These networks will extend support for current and former creative arts therapies patients and their families as they transition from treatment in a clinical setting to arts programming in their community. Key to these efforts is the participation of state and local arts agencies.

## Capacity

Creative Forces is developing manuals, toolkits, and an online resource center to support best practices; providing training and technical support for community arts providers; funding demonstration projects that respond to needs identified by Creative Forces community partners and can be adapted for use across the network; and is investing in research on the biological, psycho-social, behavioral, and economic impacts of these arts-based interventions.

### NATIONAL ENDOWMENT FOR THE ARTS

As part of the NEA's mission to increase access to the arts for all Americans, Creative Forces enables more service members, veterans, and military families to benefit from creative arts therapies and community arts activities. Americans for the Arts is working with the NEA to provide administrative support for Creative Forces. The NEA has been collaborating with the Department of Defense for more than a decade, offering creative writing workshops, performing arts programs, the Blue Star Museums military appreciation program, and grant funding for projects that reach military service members and veterans.
