Bless Me, Ultima

by Rudolfo Anaya
Preface

Rudolfo Anaya’s *Bless Me, Ultima* is about pride and assimilation, faith and doubt. The summer before Antonio Juan Márez y Luna turns seven, an old woman with healing powers comes to live with his family. There is something magical and mystical about Anaya’s coming-of-age story in post-World War II New Mexico. The novel presents a world where everyday life is still full of dreams, legends, prayers, and folkways.

Introduction to the Book

The summer before Antonio Juan Márez y Luna turns seven years old, an old woman comes to live with his family in Guadalupe, New Mexico. This woman—called La Grande or Ultima—is a curandera, a traditional healer feared by many and mysterious to all. With her knowledge of medicinal plants and adoration for the llano (open plains), she uses her magic to aid the community.

Because she served as his midwife, Ultima has a special connection to Antonio. As she teaches him, their bond deepens. Antonio witnesses several tragic events that profoundly shake his understanding of his history and his future. After the murder of Lupito, a soldier recently returned from World War II, Antonio begins to consider sin, death, and the afterlife in earnest.

Among the many conflicts Antonio seeks to resolve, the tension between his parents ranks foremost. A devout Catholic, María Luna Márez is the daughter of farmers, and she desperately wants Antonio to become a priest. But his father, Gabriel Márez, is a former vaquero (cowboy), whose wandering spirit has not settled despite marriage and six children. Gabriel’s deepest dream has not come true—to move his family to California’s vineyard country.

Antonio’s dreams often foreshadow the future and feature his three older brothers, just demobilized from World War II. These surreal dreams also reflect his existential questions: Why is there evil in the world? Why does God sometimes seem to punish the good? Where will I go after death? How can I know the truth? Believing that his first Communion will answer these questions, Antonio studies his catechism and proves an able scholar. Through his dreams and his challenges—including a mob beating from his schoolmates, the death of a close friend, and his brothers’ waywardness—Ultima and her owl remain a watchful, benevolent presence.

Bless Me, Ultima is a coming-of-age novel about a young boy’s loss of innocence and approach to maturity. But it also deals with tradition and education, faith and doubt, and good and evil. And if Antonio doesn’t find an absolute truth in his search, he still comes to believe with his father that “sometimes it takes a lifetime to acquire understanding, because in the end understanding simply means having a sympathy for people.”

Major Characters in the Book

Antonio Juan Márez y Luna
The novel’s narrator is an imaginative boy about to turn seven years old. Torn between the Mexican-Catholic heritage and the daily miracles of the natural world, he struggles to gain maturity and reconcile all the different blessings envisioned for him.

Antonio’s Family

Gabriel Márez
Antonio’s father is a former vaquero (cowboy) who dreams of moving his family to California.

María Luna Márez
Antonio’s mother is a devout Catholic from a family of farmers who wants her youngest son, Antonio, to bring honor to the family by becoming a priest.

León, Eugene, and Andrew
Antonio’s older brothers have been fighting in World War II. Their return to New Mexico renews Gabriel’s dream of a new life.

Antonio’s Circle

Ultima
Also known as La Grande, the elderly curandera (healer) joins the Márez family during her final days. Many in the town believe she is a bruja (witch), but she uses her herbal cures for good.

Samuel and Cico
Although they are only two years older than Antonio, Samuel and Cico serve as wise mentors. Samuel tells Antonio the legend of the Golden Carp the day Antonio finishes first grade; Cico takes Antonio to see the magical fish the next summer.

Horse, Bones, Red, the Vitamin Kid, and Abel
This gang comprises the boys with whom Antonio plays, fights, and ultimately falls out.

Tenorio
The villain of the novel blames Ultima for the deaths of his two young daughters. When he vows revenge and attempts to kill Ultima, Ultima’s owl blinds him in one eye.

Narciso
The town drunk and a gifted gardener, he bravely tries to stop Tenorio from murdering Ultima. After Antonio witnesses Tenorio’s triumph over Narciso under the juniper tree, Antonio’s doubts about God deepen.
How *Bless Me, Ultima* Came to Be Written

"When I started writing *Bless Me, Ultima*, I was writing Antonio's story. This boy grows up in a small town, like my hometown, and deals with things that I did—fishing, school, church, and listening to the stories of the people from the community. One night when I was writing late at night, Ultima appeared to me—let me put it that way. She stood at the door and she asked me what I was doing, and I said I was writing a story. And she said that she had to be in the story. And when I asked her name she said, 'Ultima.' And that's when the novel came alive."

—Excerpted from Rudolfo Anaya's interview with Dan Stone

Miracles and Magic in *Bless Me, Ultima*

No one in *Bless Me, Ultima* doubts the existence of mystery and magic. Miracles, signs, and symbols form a rich part of the New Mexican Catholic culture of Anaya's world, a unique setting where, for four-hundred years, Catholicism has thrived alongside Indian Pueblo religions. Much of Antonio's struggle stems from his desire to understand the 'correct' source of these miracles: the Catholic church, or the *curandera*.

Catholicism offers Antonio a prescribed way of seeing the world. He diligently learns his Catechism, believing that revelation will come once the body of Christ enters him during his first Communion (Eucharist). He loves the Virgin of Guadalupe—the patron saint of his small New Mexican town—because she represents forgiveness. A devout Catholic woman, Antonio's mother María pushes him toward the priesthood.

Ultima never contradicts María, but her ways as a traditional healer are different. As Antonio says, "Ultima was a *curandera*, a woman who knew the herbs and remedies of the ancients, a miracle-worker who could heal the sick.... And because a *curandera* had this power she was misunderstood and often suspected of practicing witchcraft herself."

These two perspectives—the church and the *curandera*—are often in conflict in the novel. Catholicism praises the Virgin Mary, yet she is mocked in Antonio's school Christmas play. The town denigrates Ultima as a *bruja* (witch), but when the priest cannot heal, some townspeople beg her to use her power.

Ultima tells Antonio not what to believe, but how to make choices. Like his father, she wants Antonio to think for himself. By the end of the novel, as Rudolfo Anaya has said, "Antonio looks into nature deep enough to see that God is in nature, not just the church."

Legends in *Bless Me, Ultima*

The Weeping Woman

The origin of the legend of La Llorona (the Weeping Woman) has been part of Southwestern culture since the days of the conquistadors. Tales vary, but all report that this beautiful, frightening spirit—with long black hair and a white gown—belongs to a cursed mother searching rivers and lakes for her children, whom she has drowned. Parents have used this story to teach their children, telling them the merciless La Llorona would drag them to a watery grave if they stay out late at night. In *Bless Me, Ultima*, Antonio has a terrible nightmare: "It is la llorona, my brothers cried in fear, the old witch who cries along the river banks and seeks the blood of boys and men to drink!"

The Legend of the Golden Carp

Anaya created this story, which draws from Christian, Aztec, and Pueblo mythology. The young Antonio first hears about the carp from his friends Samuel and Cico. Similar to the Old Testament's Noah and the flood, the tale warns that unless the people stop sinning, the carp will cause a flood to purge their evil. Antonio believes the story, but he cannot reconcile it with his Catholicism. After first hearing it, he says that "the roots of everything I had ever believed in seemed shaken." Later, when he sees the carp, he is dazzled by its beauty and wonders if a new religion can blend both the Golden Carp and Catholicism.

Herbal Remedies in *Bless Me, Ultima*

"For Ultima, even the plants had a spirit."

**Juniper**

A small shrub that grows 4-6 feet high in the Southwest, juniper is used to cure headaches, influenza, nausea, and spider bites. Indians also burned juniper wood for feasting and ceremonial fires.

"Place many juniper branches on the platform... Have Antonio cut them, he understands the power in the tree."

**Yerba del manso**

Manso can be translated to mean calm or quiet. This herb can cure burns, colic in babies, and even rheumatism.

"Of all the plants we gathered none was endowed with so much magic as the yerba del manso."

**Oregano**

This herb is also used to heal sore throats and bronchitis.
"We gathered plenty because this was not only a cure for coughs and fever but a spice my mother used for beans and meat."

**Oshá**
Sometimes regarded as a good-luck charm, this herb grows best in the mountains of New Mexico and Colorado. Along with its healing power, it can keep poisonous snakes away.

"It is like la yerba del manso, a cure for everything."
About the Author

Rudolfo Anaya (b. 1937)

Rudolfo Anaya was born in the small village of Pastura, near Santa Rosa, New Mexico, to a farmgirl mother and a cowboy father. The curandera who presided at his birth set out tools of both family trades near the newborn-only to see him reach for a paper and pencil instead.

To judge from his early years, one might have expected him to crawl toward a sporting-goods store. As a boy Anaya hunted and fished and swam the Pecos River. Later, after the family left the countryside for Albuquerque, he gravitated toward baseball and football. At sixteen, while roughhousing around an irrigation channel with friends, Anaya dove in and hit the bottom. Years of arduous rehabilitation and bedridden reading would pass before he regained a full movement in his neck.

Anaya discovered a different kind of movement during his years at the University of New Mexico. El Movimiento, the Chicano Civil Rights Movement of the 1960s, encouraged Anaya's dream of writing books that would explore his cultural heritage.

After graduating with his BA and MA, he taught at middle schools, high schools, and universities while writing at night. In 1966, he married Patricia Lawless, who shared his passion for books and storytelling.

After more than seven years of writing and rewriting his novel, Anaya submitted his first manuscript, Bless Me, Ultima, to the small Berkeley press, Quinto Sol. A $1,000 prize accompanied the novel's printing, and the mainstream New York publisher Warner Books later acquired its rights. Since its publication in 1972, the novel has become part of high school English and university Chicano literature classes. Writer Tony Hillerman has praised Anaya as the "godfather and guru of Chicano literature."

An Interview with Rudolfo Anaya

On January 4, 2007, Dan Stone of the National Endowment for the Arts, interviewed Rudolfo Anaya at his home in Albuquerque, New Mexico. An excerpt from their conversation follows.

Dan Stone: Did you grow up in a bilingual household like Antonio Márez in Bless Me, Ultima?

Rudolfo Anaya: My parents spoke only Spanish. My dad worked for big ranchers and he could buy and sell cattle, which meant he could get along in English. But at home it was a complete Spanish-speaking household. By the time I went to school when I was six or seven, I didn't know English, I only knew Spanish. When I look back, I think that we must have had wonderful teachers who, instead of alienating us, allowed us to make a transition into that English-speaking world.

DS: Would you describe some of the autobiographical aspects in your novel?

RA: Bless Me, Ultima is autobiographical in the sense that I use my hometown, the Pecos River, Highway 66, the church, the school, the little villages and ranches around the town. My parents were very much like Antonio's parents. My mother grew up in a farming family in Porta de Luna. My father grew up on the llano as a vaquero, as a cowboy, so as a child, I saw the tensions that a conflicting way of life created.

DS: It's a potent internal conflict.

RA: Antonio's ambivalence also has to deal with the conflict that the parents seem to impose on him. The mother says, "Our way of life is changing. You've got to have an education." And one way to get that education would be to become a priest. And the father says, "I'm not too religious, I want him to be like me, a cowboy, a vaquero." And that way of life also was dying in the 1940s and '50s, so Antonio has that big internal conflict that has to do with family roots.

DS: When did you become interested in reading and writing, and how did that develop as you moved on to the university?

RA: Becoming a writer is an evolutionary process. I had had a very serious spinal cord injury accident when I was in high school, and that also figures a great deal into my life. Somehow that time of being in the hospital and dealing with recovery and seeing other kids my age really suffering a lot, seeing death, and then coming out of that experience, was very important and informative. That's one of the experiences that told me that I have to write, to record not only what happened to me, but what happened to people around me.

DS: Was it difficult to develop your own voice and break away from what you had been taught at the University of New Mexico?

RA: Yes. I started at the university in 1958 and at that time there were very few Chicano students on campus, and very few in the English department studying English literature. So, I was very much alone for a long period of time. It was a
struggle. My companion was a dictionary, and I spent hours and hours in the library reading and doing research. And I had some very good professors. There were not any Chicano professors, but there were very good teachers. They were guides, and they helped me along.

**DS:** Did you know a *curandera* when you were young?

**RA:** When I was growing up, the *curanderas* were people who helped when there was a baby to be delivered, or maybe somebody broke an arm and fell off a horse, or couldn't get to a doctor. In *Bless Me, Ultima*, I took that very real world of women who are healers, or *curanderas*, but I moved it a little bit into witchcraft to set up the conflict between good and evil.

**DS:** For whom do you write, and why?

**RA:** I think the answer is, I write because I must. Then the whole idea of community comes into mind. Yes, I write for my New Mexican community, the Spanish-speaking world, but also for the entire world. Sometimes I'll be writing and I'll think of a person, a family member, or sometimes of a critic, and I'll say, "This is for them."

The Virgin of Guadalupe (Patron Saint of Mexico)

Twelve years after Spanish explorers landed on Mexican soil, the miracle of the Virgin of Guadalupe occurred. In 1531, the dark-skinned mother of Jesus appeared several times to a peasant Indian man named Juan Diego, a Catholic convert. She asked to have a church built on the site. After Diego told a bishop what happened—only to be turned away—a colorful image of the Virgin was emblazoned on Diego’s cloak to validate his story. This miracle led to the conversion of about nine million of Mexico’s Indians to Catholicism. The Vatican recognized this miracle in 1745, and the image now hangs above the altar in the Basilica de Santa María de Guadalupe in Mexico City.

Anaya’s New Mexico

Like his protagonist Antonio Márez in Bless Me, Ultima, Rudolfo Anaya grew up in New Mexico under the shadow of World War II, which his brothers fought overseas. As a young boy in 1945, he would not have realized that, less than a day’s ride away on horseback, government scientists in Los Alamos, New Mexico, had manufactured the atomic bomb that would bring the war in the Pacific to its horrific end.
Rural New Mexico in the mid-twentieth century had long been a land of Mexican and Native American tradition both lured by, and resistant to, civilization's advances. Hopi, Navajo, and Pueblo Indians had foraged and farmed there for centuries. When the Spanish arrived in 1540, they were newcomers. But the religion they believed, the laws they imposed, and the language they brought all took root.

The Rio Grande corridor is the bedrock of the Pueblo, Navajo, and Apache Indians, a spiritual setting that informs Anaya's fiction. As Anaya has said, "Into that came the Spaniards and the Mexicans with the Catholic religion; later, Anglo America comes in. So you have a fascinating place where these cultures are mixing, learning from each other, and quite often in conflict." The body of Spanish and Mexican folklore, called cuentos, passed orally from generation to generation, contains the basis of New Mexican values and beliefs. Through Ultima and Antonio, Anaya has created his own story that is as much old as new.
Other Works/Adaptations

Anaya and His Other Works

Rudolfo Anaya's books since *Bless Me, Ultima* (1972) fall into roughly three approximate categories: the novels, stories, essays, poetry, and plays he writes for his grandchildren; and the anthologies that he's edited out of a sense of responsibility to his peers and inheritors. After the success of his first novel, Anaya wrote *Heart of Aztlan* (1976), the personal and political novel of a boy whose family moves from the New Mexico countryside to the barrio. Rounding out his semi-autobiographical trilogy is the novel *Tortuga* (1979), which reimagines the months Anaya spent in a hospital recuperating from a near-fatal teenage diving accident. Some critics, including Anaya himself, consider *Tortuga* his best book.

Just when Anaya might have settled prematurely into the role of Chicano elder statesman, in 1992 he published the novel *Alburquerque*, which became an important transitional book for him. His first fully realized, adult story of the urban West, *Alburquerque* reclaimed the original spelling of his adopted hometown for a story that combined many of the forms he had already used and added an important new one: detective fiction.

The book won the prestigious PEN/West Award, and paved the way for Anaya's quartet of Sonny Baca mysteries. Grouped around the seasons that governed Anaya's childhood on his family's farm, these novels of a shamus gradually turning shaman—*Zia Summer* (1995), *Rio Grande Fall* (1996), *Shaman Winter* (1999), and *Jemez Spring* (2005)—brought Anaya a largely new audience.

In 2000, Anaya undertook another book-length poem, this one destined for young readers. *Elegy on the Death of César Chávez* (2000) commemorated the travails and triumphs of the great United Farm Workers founder. The Chicano movement in which both men had played an important part was passing into history, and Anaya took pains to ensure that Chávez's accomplishments were not forgotten by the younger generation whose relative freedom he had helped to make possible. The struggle remained far from over, so Anaya's elegy struck a balance between honoring his own aging generation and rousing the next one.

Yet Anaya was hardly finished. In 2006, he published two new books: a collection of short fiction, *The Man Who Could Fly and Other Stories*, and *Curse of the ChupaCabra*, his first young-adult novel. Pushing seventy, Anaya was happy to be remembered as the groundbreaking author of *Bless Me, Ultima*, perhaps even happier as the author of a still-growing shelf of books. As an undergraduate at the University of New Mexico in Albuquerque, he had searched the Zimmerman Library in vain for a literary tradition to call his own. Today, that same library's Center for Southwest Research has become a mecca for Anaya scholars, housing a wealth of his first editions, international translations, and manuscripts.

1. *Bless Me, Ultima* is a coming-of-age story that chronicles several rites of passage for Antonio. Which aspects of his development are universal, and which are particular to his Hispanic Catholic culture?

2. Why does the Márez family ask Ultima to live with them? Why does she think Antonio is special? Despite the conflicts between his parents and the skepticism of their neighbors, why is the family's view of Ultima the one thing upon which they can agree?

3. The novel's action begins near the close of World War II, before Antonio's three soldier-brothers return safely home to New Mexico. How important is the war to the story?

4. What makes Antonio's first day of school so difficult?

5. How does Antonio's perception of Ultima differ from the opinions of those in his town?

6. What do Antonio's dreams reveal about him? How do they change as he matures?

7. The humor in the novel usually comes from moments when the boys are playing or fighting together. What significance is there to the Christmas play, in which Horse plays the Virgin Mary and Antonio plays a shepherd?

8. Often the boys' games lead to violence that parallels the adult world. What happens when they force Antonio to become their priest?

9. How does the legend of the Golden Carp resemble the New Testament story of Jesus Christ, or the Mexican story of the Virgin of Guadalupe?

10. What happens when Antonio finally takes his long-awaited first Communion?

11. Antonio witnesses the deaths of several adults and one of his childhood friends. How does the latter death, especially, affect his sense of the world?

12. At the end of the novel, a radical thought comes to eight-year-old Antonio: Is a new religion possible? What do you think is the answer to his question?

13. How would you answer Antonio's final question: "What dream would form to guide my life as a man?" Does he choose the life of a farmer, vaquero, priest, or something else?

14. In your experience, does the novel reinforce or revise stereotypes of Hispanic culture?
